

Privacy Notice – Legal Requirements

How your information is shared so that this practice can meet legal requirements

The law requires The Ash Surgery to share information from your medical records in certain circumstances. Information is shared so that the NHS or Public Health England can, for example:

- plan and manage services;
- check that the care being provided is safe;
- prevent infectious diseases from spreading.

We will share information with NHS Digital, the Care Quality Commission and local health protection team (or Public Health England) when the law requires us to do so. Please see below for more information.

We must also share your information if a court of law orders us to do so.

NHS Digital

- NHS Digital is a national body which has legal responsibilities to collect information about health and social care services.
- It collects information from across the NHS in England and provides reports on how the NHS is performing. These reports help to plan and improve services to patients.
- This practice must comply with the law and will send data to NHS Digital, for example, when it is told to do so by the Secretary of State for Health or NHS England under the Health and Social Care Act 2012.
- More information about NHS Digital and how it uses information can be found at: <https://digital.nhs.uk/home>

Privacy Notice – Legal Requirements

Care Quality Commission (CQC)

- The CQC regulates health and social care services to ensure that safe care is provided.
- The law says that we must report certain serious events to the CQC, for example, when patient safety has been put at risk.
- For more information about the CQC see: <http://www.cqc.org.uk/>

Public Health

- The law requires us to share data for public health reasons, for example to prevent the spread of infectious diseases or other diseases which threaten the health of the population.
- We will report the relevant information to local health protection team or Public Health England.
- For more information about Public Health England and disease reporting see: <https://www.gov.uk/guidance/notifiable-diseases-and-causative-organisms-how-to-report>

Direct Care

Under the National Health Service Act 2006 and the Health and Social Care Act 2012, <Add practice name here> is required by law to process your personal data to provide you with direct care. Therefore, under current Data Protection legislation (the Data Protection Act 2018 and the UK General Data Protection Regulation (UK GDPR) the processing of your personal data is necessary under:

- **UK GDPR Article 6(1)(e)** “processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.

Where we process special categories of sensitive information relating to your physical and/or mental health, racial or ethnic origin, etc, we do so under:

- **UK GDPR Article 9(2)(h)** “processing is necessary for the purposes of preventive or occupational medicine, for the assessment of the working capacity of the employee, medical diagnosis, the provision of health or social care or treatment or the management of health or social care systems and services....”

Use of Third-Party Companies

When we use a third-party service provider to process data on our behalf, we will always have an appropriate agreement in place to ensure that they keep the data secure, that they do not use or share information other than in accordance with our instructions and that they are operating appropriately. An example of functions that may be carried out by third parties include:

- Companies that provide IT services & support, including our core clinical systems; systems which manage patient-facing services (such as our website and service accessible through the same); systems which facilitate appointment bookings or electronic prescription services; document management services etc.

Automated Decision Making

The Ash Surgery uses AI for the following:

- automated decision making when signposting patients as part of its use of PATCHs software.
- identifying patients at risk of cancer at the earliest stage in its use of C the Signs software.
